UNITED STATES DEPARTMENT OF AGRICULTURE  
FARM SECURITY ADMINISTRATION

PROJECT REGISTER

Form FSA-196

November 30, 1940

## FOREWORD

This Register includes projects initiated by the FSA or transferred to the FSA from the following agencies: the former Division of Subsistence Homesteads, Department of the Interior (by Executive Order 7041 May 15, 1935); the State Rural Rehabilitation Corporations (by separately executed agreements); and the former Resettlement Administration (by Secretary's Memorandum 732 September 1, 1937). The Register also includes projects initiated and developed by the Forest Service in cooperation with the Resettlement Administration and the Farm Security Administration with funds of the latter two agencies. The initiating agency of each project is indicated in the "Status and Description" column.

Most of the projects in the Register were developed or completed by the Resettlement Administration or the FSA, or are now under development by the latter organization.

Land utilization projects transferred to other agencies, together with project proposals transferred to the W.P.A. and Office of Indian Affairs, are not included in the Register. The omission of these projects and the cancellation of certain project numbers account for the fact that numbers now in the Register do not run altogether consecutively.

The Register contains the Farm Security Administration number of each project and other identifying information as follows: official project number or numbers; the official name; the location, both as to county or counties and the headquarters; and the status and description. Projects which have reached the stage of land purchase or beyond are distinguished by capital letters.

In each state numbers from 1 to 50, inclusive, have been reserved for projects which are (1) FSA investments or (2) joint investments of the FSA and a State Rural Rehabilitation Corporation. These projects carry the following symbols: RR, RF, RI, SH, RH, SR, and FS. Most of the joint investment projects formerly carried two numbers. For purposes of identification, the OBSOLETE number of each joint investment project is shown in parenthesis directly beneath the correct number. Numbers from 51 to 99, inclusive, have been reserved for projects which are investments of the State Rural Rehabilitation Corporations. These projects carry the symbol S.

The following abbreviations are used in the "Status and Description" column: SH -- former Division of Subsistence Homesteads, Department of the Interior; RRC -- State Rural Rehabilitation Corporation; RA -- former Resettlement Administration; and FSA -- Farm Security Administration.

In order to insure accuracy, each Regional Director was asked to check and verify draft copies of those pages in the Register involving the projects located in his Region. Insofar as possible, all information included in the Register tends to be permanent. Thus it is hoped to avoid the need for issuing occasional supplements except for the purpose of giving notification of the registration of new projects.

Copies of the Register may be obtained by request.

Budget & Trust Section,  
Finance Division.

\* This project is in Region 12.

UNITED STATES DEPARTMENT OF AGRICULTURE  
FARM SECURITY ADMINISTRATION

PROJECT REGISTER

Form FSA-196

November 30, 1940

## FOREWORD

This Register includes projects initiated by the FSA or transferred to the FSA from the following agencies: the former Division of Subsistence Homesteads, Department of the Interior (by Executive Order 7041 May 15, 1935); the State Rural Rehabilitation Corporations (by separately executed agreements), and the former Resettlement Administration (by Secretary's Memorandum 732 September 1, 1937). The Register also includes projects initiated and developed by the Forest Service in cooperation with the Resettlement Administration and the Farm Security Administration with funds of the latter two agencies. The initiating agency of each project is indicated in the "Status and Description" column.

Most of the projects in the Register were developed or completed by the Resettlement Administration or the FSA, or are now under development by the latter organization.

Land utilization projects transferred to other agencies, together with project proposals transferred to the W. P. A. and Office of Indian Affairs, are not included in the Register. The omission of these projects and the cancellation of certain project numbers account for the fact that numbers now in the Register do not run altogether consecutively.

The Register contains the Farm Security Administration number of each project and other identifying information as follows: official project number or numbers; the official name; the location, both as to county or counties and the headquarters; and the status and description. Projects which have reached the stage of land purchase or beyond are distinguished by capital letters.

In each state numbers from 1 to 50, inclusive, have been reserved for projects which are (1) FSA investments or (2) joint investments of the FSA and a State Rural Rehabilitation Corporation. These projects carry the following symbols: RR, RF, RI, SH, RH, SR, and FS. Most of the joint investment projects formerly carried two numbers. For purposes of identification, the OBSOLETE number of each joint investment project is shown in parenthesis directly beneath the correct number. Numbers from 51 to 99, inclusive, have been reserved for projects which are investments of the State Rural Rehabilitation Corporations. These projects carry the symbol S.

The following abbreviations are used in the "Status and Description" column: SH -- former Division of Subsistence Homesteads, Department of the Interior; RRC -- State Rural Rehabilitation Corporation; RA -- former Resettlement Administration; and FSA -- Farm Security Administration.

In order to insure accuracy, each Regional Director was asked to check and verify draft copies of those pages in the Register involving the projects located in his Region. Insofar as possible, all information included in the Register tends to be permanent. Thus it is hoped to avoid the need for issuing occasional supplements except for the purpose of giving notification of the registration of new projects.

Copies of the Register may be obtained by request.

Budget & Trust Section,  
Finance Division.
